

## Southway Junior School Whole School Curriculum Map 2013-2014

Each year group organises the curriculum into three Learning Journeys over the school year. Under an umbrella title, which usually has a Science, History or Geography emphasis, different subjects are woven into the Learning Journey as much as possible in a more creative, holistic way, to support a broad and balanced curriculum. Children are immersed in their topic, learning the different subject skills and acquiring knowledge and understanding, through exciting, interesting learning experiences.
