LEARNING AND ACHIEVING TOGETHER

# NEWSLETTER

Dear families

Did you know Almost 1 in 4 of 8 to 11-year-olds and 3 in 4 of 12 to 15-year-olds has a social media profile. 1 in 3 internet users are children. 1 in 4 children have experienced something upsetting on a social networking site. Around 1 in 8 young people have been bullied on social media. Almost 1 in 4 young people have come across racist or hate messages online. These are the stark facts as released by Ofcom in a recent report into social media use by children. We are all aware of the possible risks posed by allowing our children to surf the internet unsupervised. As a school we are particularly vigilant and deal with any issues that may arise swiftly and fairly. We run assemblies highlighting the potential issues around the use of social media and all classes have follow up lessons on cyber safety.

The internet is a marvellous tool and it is not going away. Dr Richard Woolfson, child psychologist and 'Knowthenet' spokesman, said: 'The internet offers wonderful experiences for growing and inquisitive young minds. Parents can no longer protect children by simply trying to limit their online experiences. Instead parents need to maintain an open dialogue and encourage children to share both good and bad online experiences, talk openly and straightforwardly about the risks they may encounter online without scaring them and make sure they keep up with the latest social media crazes and work with their children rather than trying to control them.' I fully agree with him.

In the meantime have a lovely weekend.

Very best wishes Mr P Newbold

On Thursday 14th February, Year 4 had the opportunity to attend a Badminton Festival, at The Triangle, run by St Paul's. There were a variety of different badminton drills and challenges, and the children had a wonderful time learning lots of skills.
